BODY SINERGY LASER 980nm

THE LASER TO DEFINE SHAPES

-  ELECTROPORATION
-  ULTRASOUND
-  ELECTROLIPOLYSIS
-  ELECTRO REMODELING
-  LASER LLLT

Dimension: L600 x P570 x H1260

Innovative,
painless, safe
and performing

Giving numbers, yes!

- 1** application only
- 5** targeted treatments
- 8** synergistic plates

Brand new Overline Infinity Body Synergy Laser 980nm technology for reshaping and toning the body. Born in the company's laboratories, it exploits the synergy of different electric waves to act in a targeted manner on the most frequent aesthetic imperfections affecting the body. Ideal to awaken the metabolism, improve lymphatic circulation and microcirculation, drain, oxygenate, regenerate and stimulate the production of new Collagen, Elastin and Hyaluronic Acid, eliminate the excess rolls and the unaesthetic "orange peel"; Overline Infinity Body Synergy Laser 980nm redefines the silhouette and gives the skin firmness and elasticity.

The different programs that can be performed with Overline Infinity Body Synergy Laser 980nm exploit the use of innovative plates slightly concave, designed ad hoc to better conform to the body shapes; they act simultaneously thanks to a series of latest generation technologies: Low Level Laser (LLLT), Ultrasound, Electrolipolysis, Electro Remodeling and Electroporation, all to act in depth and effectively on localized fat deposits, on cellulite lipodystrophy, fluid retention and skin atony. The treatments generate a visible reduction of adipose tissue and cellulite imperfections with excellent muscle toning and skin firming. No recovery time needed after treatment.

SYNERGY WITH VISIBLE RESULTS

Overline, thanks to its research laboratories, has combined several treatments in a single movement. With 8 synergistic plates, equipped with five specific actions that develop in unison, it is able to achieve concrete and visible results from the first session.

ULTRASUONI 1 MHz - ELETTROLIPOLISI - LLLT

This combination is one of the most effective and powerful synergies to counteract localized adiposity and cellulite*. Ultrasound selectively acts on fat cells and consequently on the fibrous component of cellulite*; while Electrolipolysis acts on fat, but especially on the lymphatic component and microcirculation. The combination of these technologies with the LLLT allows to act specifically on all the components of the imperfection of cellulite*, enhancing each other.

ULTRASUONI 1 MHz - ELETTRORIMODELLAMENTO - LLLT

The association between Ultrasound, Electro Remodeling and LLLT is a set that generates an intense lipolytic action (or better, lipophoretic). Muscle contraction created by stimulation of red muscle fibers, allows you to take fats present in the tissues to draw energy suitable for contraction itself. This activity allows us to consume lipids that would otherwise circulate and give life to new fatty deposits.

THE SYNERGY

The principle behind these plates consists in combining more energy to achieve a common goal, achieve tangible results and surprise consumer expectations. Thanks to the efforts of Overline laboratories we have been able to insert the Laser (LLLT) with Ultrasound, Electrolipolysis, Electro Remodeling and Electroporation. The results can be seen very quickly thanks to internal tests*: on a small sample of people we noticed a constant reduction in whole body measures, and above all, a redefinition of the main imperfections.

- ULTRASOUND
- ELECTROPORATION
- ELECTROLIPOLYSIS
- ELECTRO REMODELING
- LASER LLLT

The brand new plates, with a slightly concave shape to better adapt to the body, allow the simultaneous and synergistic action of the best technologies for body reshaping

ELECTRO REMODELING

LASER LLLT

ELECTROLIPOLYSIS

ULTRASOUNDS

ELECTROPORATION

LOW LEVEL LASER TREATMENT

EFFECTIVE LIPOLYTIC AND REMODELING ACTION

Low Level Laser Treatment (LLLT) technology involves a pre-treatment phase with electroporation which acts directly on the skin, creating electropores that depending on the length of the pulse remain open from a few seconds to one or two minutes and allow better permeability of tissues, in favor of a large variety of hydrophilic molecules that otherwise would not be able to penetrate.

LLLT DREN

Programs that use a particular waveform with a 'draining' effect through the association of calibrated frequencies that, with a superficial muscular stress, allow the reabsorption of liquids.

The protocol provides for the use of bandages iSol.Beauty
ISO.BE.115 DRAIN ACTIVE (draining effect)

LLLT SLIM

In the Slim programs the stimulation takes place at the expense of the red muscle fiber, dedicated to energy consumption (aerobic) that improves the local metabolism, the "energy fuel" used to perform this training work at the muscle level. Muscle stimulation consumes fat and improves the areas treated.

The protocol provides for the use of bandages iSol.Beauty
ISO.BE.125 REDU CELL (reducing effect)
ISO.BE.120 SLIM REDUCING (slimming effect)

LLLT LIPO

Programs that use a waveform and a lipolytic frequency with continuous emission (without pause), acting at the level of the hypodermis, urging the splitting of the fat cell into triglycerides > fatty acids > glycerol.

The protocol provides for the use of bandages iSol.Beauty
ISO.BE.125 REDU CELL (reducing effect)
ISO.BE.120 SLIM REDUCING (slimming effect)

LLLT TONIC

In the Tonic programs the stress occurs at the intermediate muscle fiber, which has mixed characteristics between white and red fiber. This results in stimulation of local metabolism and improvement of vascularization and capillarization as well as increased muscle tone.

The protocol provides for the use of bandages iSol.Beauty
ISO.BE.110 TONE UP (volume effect)

● LLLT CELL EDEMA

The programs inserted in this context have a particular waveform that improves the purification and drainage of excess liquids, creating a pleasant feeling of lightness.

Il protocollo prevede l'uso dei bendaggi iSol. Beauty
ISO.BE.125 REDU CELL (*effetto riducente*)
ISO.BE.115 DRAIN ACTIVE (*effetto drenante*)

* Imperfections caused by cellulite.

THE TREATMENT

Thanks to this intense combination of energies the treatment will offer the Aesthetic Operator very high performance in terms of result.

When significant pathways are made in the area of imperfections due to localized fat and/or cellulite, the major problem often occurs at the end of the pathways, when you encounter the atony given by the sum of the treatments.

Overline has thought to provide synergistically to this imperfection, often underestimated but instead important, inserting inside the equipment the technology of Electro Remodeling. These stimulations, absolutely pleasant on a perceptive and body level, stimulate "the muscle memory effect" creating filling and firming thanks to the toning of those areas where, for the need of imperfection, reduction is required.

The body shapes will be redefined and customers will immediately notice the changes in terms of reshaping the silhouette, regaining confidence in their physical appearance, which they missed.

PAMPER YOUR CUSTOMERS DURING TREATMENT

To regenerate, tone and elasticize the skin of the face, we have made available the handpiece for the Radio Frequency Face, which can be performed simultaneously with body treatments. A great advantage, which results in time saving and greater customer satisfaction, also optimizing the work of the aesthetic operator.

VIDEO EDUCATIONAL

The technological heart of the equipment, thanks to the advanced software, offers the possibility to view some videos that help clarify doubts and improve manual skills. At the forefront of service, Overline Infinity Body Synergy Laser 980nm is always alongside the professional aesthetic operator to offer a result of excellence. The video tutorials on the individual protocols and the specific manual skills are easily accessible via the touchscreen 10". Overline has thought of this solution to allow anyone, in case of a small forgetfulness or when inserting new operators, to be able to carry out self-training, in order to achieve the skills needed to offer and ensure the best customer service.

PERFECT PERFORMANCES

Protocols and performances carried out within the Company* respecting the suggested working methods confirm the synergy between Overline technology and iSol.Beauty cosmetics, ensuring maximum treatment effectiveness.

INTUITIVE SYSTEM

The advanced software of Overline Infinity Body Synergy Laser 980nm allows you to enjoy numerous and advanced functions and to control the equipment through the 10" monitor in a simple, fast and intuitive way. This monitor, as conceived, immediately becomes a fundamental tool to implement the work of the professional.

With a few small gestures, the operator can carry out a 360 ° consultation of the specific and physical situation of the customer. It can examine images, control programs and treatments, have access to the data of its customers, also can verify the situation of the processing steps to be performed, and thus have the opportunity to motivate and involve the customer more. Inside the guided path you can also view some videos that help clarify doubts and improve dexterity.

INFINITELY *Beautiful*

Overline Infinity is an innovative choice for the beauty salon. It is the possibility of endless personalized treatments with the synergy of the latest technologies. It is the intuitive interface and ease of use. It is the effectiveness of treatments and the satisfaction of the customer of the Center. It is the continuous training support to allow each operator to make the most of all the potential offered by the equipment. It is the safety of using systems rigorously tested, certified and built in compliance with current regulations. It is a design with sinuous lines, beautiful to behold and adaptable to any environment.

Infinity is for those who have a goal and do not want to lose sight of it!

THE DETAILS

The customization concept for Infinity Overline is very important. Each technology has the advanced Contactless Card reading system through which for each customer is inserted the sequence of his treatment, memorizing the steps already made and those still to be made in order to optimize the time. The electronically adjustable Monitor of Overline Infinity facilitates easy programming and control of the work, offering a clear view of the treatment to the customer. A large upper drawer and a storage compartment allow you to store materials and cosmetics, while the shaped shelf on the back of the equipment allows tidy storage of handpieces

Contactless Card

36 MONTHS WARRANTY
ZERO
WORRIES

The Overline Infinity Body Synergy Laser 908nm is guaranteed from material and workmanship defects, ex-factory, for a period of 36 months. Activate the conditions of validity of the guarantee is very simple, just fill in all its parts the Warranty form that is inside the package of Infinity Body Sculpt, and send it to Overline no later than 10 days from the date of purchase.

INTEGRATED COSMETICS

The combination of Overline Infinity Body Synergy Laser 908 nm and iSol. Beauty integrated cosmetics is synonymous with concrete answers to all aesthetic needs and targeted results. iSol.Beauty cosmetics are designed ad hoc to work efficiently with the technology of which the equipment is endowed, for maximum operator satisfaction and an excellent customer beauty experience.

1 **Gel conduttore DRENA-TONE GEL**
Conductive gel, toning and reactivating effect with ginseng.
ISO.TONE.200 [1000ml]
Specific conductive gel, formulated to intensify the effect of treatments with equipment, rich in valuable and innovative active ingredients with reactivating, elasticizing and toning effect.

5 **Bandages REDU CELL**
Cellulite Reducing Effect*
ISO.BE.125
Special formulation rich in caffeine, carnitine, bromelain, phosphatidylcholine and guarana that, along with the synergies of essential oils and phytocomplexes of plant origin such as grapes, witch hazel and green tea, works systematically on the tissue manifestations of fibrous cellulite and localized fat deposits.

2 **Gel conduttore LIPO-CELL GEL**
Conductive gel cellulite and fat with guarana and green tea
ISO.DREN.100 [1000ml]
Specific conductive gel formulated to intensify the effect of treatments with the equipment, rich in valuable and innovative active ingredients that counteract the imperfection of cellulite* and fat deposits.

6 **Bandages SLIM REDUCING**
Slimming Effect
ISO.BE.120
reatment rich in caffeine, escin and guarana extract that stimulate the process of demolition of triglycerides thus favoring the slimming and reshaping of the silhouette.

3 **Radio Frequency RF & STIM FACE EMULSION**
Face Emulsion for RF and Stimul
ISO.RF.100 [250ml]
Anti-age emulsion, Radio Frequency and Stimol treatment, innovative formulation designed for facial treatments with Radio Frequency, that allows the maximum conductivity of energy and facilitates the flow of the handpiece, with a marked toning and anti-aging action.

7 **Bandages TONE UP**
Volume Effect
ISO.BE.110
Special formulation rich in African kigelia, sarsapogenine and hyaluronic acid, with known properties aimed at significantly improving the elasticity and tone of the skin, restoring its fullness and giving it new shape.

4 **Bandages DRAIN ACTIVE**
Drenante Detox
ISO.BE.115
Treatment rich in Dead Sea salts and lactic acid that facilitate ion-osmotic exchange in the tissue, promote drainage and help to free the tissues from toxins. Their properties help to counteract the imperfections of cellulite. Together with aloe and mineral salts bring well-being to the whole body.

* Imperfections caused by cellulite.

Always at the service of beauticians

Cutting-edge and Innovation are the ideal terms to define **Overline**. A historical Milanese company, undisputed leader in the production and sale of hi-tech professional cosmetic equipment.

Founded in 1989 and, ever since, it can very simply be described as a “success story”. A company that expresses its business style through ethical commitment and careful and responsible commercial management.

The literature of the company uses terminology allowed at an international level, as well as being the most commonly used terms to define technologies and features

Research & Development

The beating heart of the company, the innovative Research and Development laboratory, is the place where Technologies of high performance and simple use provide effective solutions to the demands of professional beauticians. Various, safer systems that offer multiple functions for face, body and hair removal

Made in Italy

100% Made in Italy production that offers competitive advantages in terms of performance, safety and service to the customer. Overline technologies are distributed at the finest cosmetic and beauty salons across Italy and in every European country in addition to South America, Mexico, Africa and Asia.

Certifications

Overline is a trademark of Technology S.r.l., a company that constantly pursues the research and development of technologies, to offer the professional beauty market innovative systems that offer visible results, while maintaining the maximum safety of the beautician and customer. Thanks to its great experience, **Technology** possesses important certifications for compliance with regulations and international standards in the production of biomedical, electro-cosmetic and cosmetic equipment. The certifications that make all of the technologies very high level are the following:

Tüv Rheinland ISO 9001:2015. This represents the internationally recognised Quality Management System certification that ensures that the devices comply with the management system required by the standard in terms of design, production, sale, development, and research.

Tüv Rheinland ISO 13485:2016. The certification related to the Quality Management System of Medical Devices is a standard reference for Quality as part of the regulatory procedures governing the design, production and marketing of Medical Devices.

Tüv Rheinland ISO 45001:2018. Relative to the standard for the management of the health and safety of workers.
