# LIFTING MASK

100% Biocellulose Mask

## 100 % ORGANIC BIOCELLULOSE

Biocellulose is a natural fibre, laboratory-grown from small bacteria that convert glucose into cellulose, forming the fibres that make up the fabric of the ready-for-use masks. Originally developed as artificial skin for the treatment of burns and chronic wounds.

## MAIN ACTIVE INGREDIENTS

**Rejuline - Acetyl decapeptide-3** - Also known as Rejuline, this is a biomimetic peptide that reduces and prevents the formation of expression lines and wrinkles, actively generating new skin cells. It strengthens the of the skin elasticity by inducing the synthesis of collagen and elastin.

**Hydrolysed Hyaluronic Acid** - While hyaluronic acid is "too big" to be absorbed by the skin thus giving only superficial hydration, its smaller molecular fragments (hydrolysed hyaluronic acid) penetrate into the sub-cutaneous layers, thereby firming the tissues. The low molecular weight allows the skin to absorb it slowly, to perform a more intense hydrating action. It also temporarily fills and smooths small wrinkles.

**Quinoa** (*Hydrolysed Chenopodium Quinoa seed 100%*) - A natural firming agent with immediate effect. The proteins of quinoa provide compactness and elasticity, while the anti-oxidants help maintain youthful, healthy and luminous skin.

**Resveratrol** - This is a strong polyphenol effective in protecting the skin against the damaging effects of cell stress. It also has a retinol-like action, with a positive effect on wrinkle depth.

Professional use & Home treatment

ISO.BIOCELL.100

5 x 20ml • Net Wt. 0.68 fl oz.

**Synergy complex** - a formula containing highly active ingredients that act as vectors and that work synergistically to provide a detoxifying, calming, hydrating and anti-oxidant action

## SUPPORTING PRODUCTS

Anti-Age 100% Biocellulose Mask

Professional use & Home treatment

ISO.BIOCELL.200

[5 X 20 ml]

## TECHNOLOGIES TO USE IN COMBINATION

**Chrome Light Mask** to boost the effect.

**Post cabin treatment with technologies.**

## USE

**In cabin** - apply the Anti-age biocellulose mask at the end of the cabin anti-age process, which repairs, restructures and nourishes.

**Session and leave-on time** - we recommend 1 weekly cabin session. Leave on for 15 to 20 min.

**Treatment** - to achieve a better result it is advisable to use the Lifting Mask (ISO.BIOCELL.100) at home as well, alternating it with the Anti-Age Mask (ISO.BIOCELL.200) for a more complete effect.

**Anti-age mask day/night** - the biocellulose can be applied morning and evening, longer leave-on time improves the result.

**Ingredients:** Aqua (water), aloe barbadensis leaf juice, butylene glycol, dimethyl isosorbide, sodium pca, pullulan, zinc pca, hydrolysed chenopodium quinoa seed, hydrolysed hyaluronic acid, acetyl decapeptide-3, resveratrol, polygonum cuspidatum extract, ammonium glycyrrhizate, amylopectin, allantoin, urea, beta-glucan, maltodextrin, calcium pantothenate, pyridoxine hcl, cyclodextrin, sodium ascorbyl phosphate, xanthan gum, phenoxyethanol, chitosan, saccharomyces/copper ferment, saccharomyces/iron ferment, saccharomyces/magnesium ferment, saccharomyces/silicon ferment filtrate, saccharomyces/zinc ferment, propylene glycol, ethylhexylglycerin, pentylene glycol, tocopheryl acetate, glycine, silica, lactic acid.

# ANTI-AGE MASK

100% Biocellulose Mask

## 100 % ORGANIC BIOCELLULOSE

Biocellulose is a natural fibre, laboratory-grown from small bacteria that convert glucose into cellulose, forming the fibres that make up the fabric of the ready-for-use masks. Originally developed as artificial skin for the treatment of burns and chronic wounds.

## MAIN ACTIVE INGREDIENTS

**Palmitoyl tripeptide-38** - This is a tripeptide that is able to stimulate the components of the skin's matrix. It has rehydrating properties, evidently linked to the osmotic effect of collagen, anti-wrinkle action with significant reduction of wrinkle depth, redensifying properties with increased skin thickness and relative increase in elasticity.

**Hydrolysed Hyaluronic Acid** - While hyaluronic acid is "too big" to be absorbed by the skin producing only superficial hydration, its smaller molecular fragments (hydrolysed hyaluronic acid) penetrate into the sub-cutaneous layers, thereby firming the tissues. The low molecular weight allows the skin to absorb it slowly, to perform a more intense hydrating action. It also temporarily fills and smooths small wrinkles.

**Coffee** (*Coffee Arabica seedcake extract*) - Coffee Arabica seedcake extract - an effective anti-oxidant, giving hydration and improves the elasticity of the tissues.

**Baobab** (*Adansonia Digitata fruit extract*) - Rich in vitamins A, D, and E, as well as Omega 3, 6 and 9 essential fatty acids (vitamin F). It performs an antioxidant and hydrating action. It protects the of the skin natural barrier function, it is highly nourishing and protective.

**E.G.F.** - *Epidermal growth factor (Crocus Chrisanthus)* - Stimulates the natural factor of skin growth, rejuvenating the structure, inverting the ageing process and renews the skin's strength and compactness. It also increases the production of collagen and elastin.

Professional use & Home treatment

ISO.BIOCELL.200

5 x 20ml • Net Wt. 0.68 fl oz.

**Synergy complex** - *formulation containing principles highly active that act as vectors and they work in synergy with action detoxifying, calming, moisturizing and antioxidant.*

## SUPPORTING PRODUCTS

100% Biocellulose Lifting Mask

Professional use & Home treatment

ISO.BIOCELL.100  
[5 X 20 ml]

## TECHNOLOGIES TO USE IN COMBINATION

**Chrome Light Mask to boost the effect.**

**Post - Cabin treatment with technologies.**

## USE

**In cabin** - apply the Lifting biocellulose mask at the end of the anti-age process. It provides a smoothing and compacting effect.

**Session and leave-on time** - we recommend 1 weekly cabin session. Leave on for 15 to 20 min.

**Treatment** - Anti-Age Mask can also be applied at home as maintenance, we recommend alternating with Lifting mask.

**Lifting mask day/night** - the biocellulose can be applied both morning and evening to achieve an immediate Lifting effect, longer leave-on time improves the result.

**Ingredients:** Aqua (water), aloe barbadensis leaf juice, butylene glycol, dimethyl isosorbide, sodium pca, pullulan, zinc pca, adansonia digitata fruit extract, hibiscus sabdariffa flower extract, Acetyl Decapeptide-3, coffee arabica seedcake extract, hydrolysed hyaluronic acid, palmitoyl tripeptide-38, kigelia africana fruit extract, resveratrol, polygonum cuspidatum extract, acacia senegal gum, ammonium glycyrrhizate, amylopectin, dimethylaminoethanol tartrate, crocus chrysanthus bulb extract, allantoin, urea, beta-glucan, maltodextrin, calcium pantothenate, pyridoxine hcl, cyclodextrin, sodium ascorbyl phosphate, xanthan gum, phenoxylethanol, chitosan, saccharomyces/copper ferment, saccharomyces/iron ferment, saccharomyces/magnesium ferment, saccharomyces/silicon ferment ferment filtrate, saccharomyces/zinc ferment, propylene glycol, ethylhexylglycerin, pentylene glycol, tocopheryl acetate, glycine, silica, lactic acid.

# HYDRA FILLER & RESTORING MASK

Hyaluronic Acid • Tonic Natural Complex • Probiotics

## 100 % ORGANIC BIOCELLULOSE

100% pure biocellulose fibers Mask, can provide an intense moisturizing, soothing and restoring effect to the skin. Rich in numerous and innovative active ingredients including the "Restoring Natural Complex" that exerts an intense soothing and elasticizing action thanks to the mix of plant extracts and peptides of which it is composed. Hyaluronic acid gives an immediate plumping and moisturizing effect and the "pro-biotic-like" can form a protective film on the skin of the face that helps to restore the optimal conditions.

## MAIN ACTIVE INGREDIENTS

**Probiotic-like Ingredient** (*Saccharomyces/Silicon Ferment & Saccharomyces/Magnesium Ferment & Saccharomyces/Copper Ferment & Saccharomyces/Iron Ferment & Saccharomyces/Zinc Ferment*): Protective action, rebalancing and strengthening the cohesion of corneocytes. It is an ingredient that promotes the balance of the skin microbiota and helps to strengthen the barrier function of the skin preventing dehydration.

**Restoring Natural Complex:** *mix di stratti e peptidi quali; Estratto di Aloe Barbadensis (Aloe Barbadensis Leaf Juice):* Anti-inflammatory, repairing, calming and anti-age. *Rejuline® (Acetyl Decapeptide-3):* Peptide with calming properties and cica trizzanti. Strengthens the elasticity promoting the synthesis of collagen and elastin. *Rhododendron: (Rhododendron Brachycarpum Ex tract):* Rich in flavonoids and quercetin, it has calming and anti-inflammatory properties.

**Hyaluronic Acid (Hydrolyzed Hyaluronic Acid):** hydrolyzed hyaluronic acid (smaller molecular fragments) penetrates the subcutaneous layers giving firmness to the tissues. The low molecular weight allows the skin to absorb it slowly performing a more intense moisturizing action. It also determines a temporary filling and smoothing out of small wrinkles

**Beta Glucan** (*Beta-Glucan*): Its ability to stimulate the production of fibroblasts makes it a good adjuvant in anti-aging treatments. Helping the healing process, it is also added to dermatological products dedicated to the care of delicate skin.

**Allantoin** (*Allantoin*): it is a multi-active compound as it has moisturizing, soothing, repairing, anti-inflammatory and antioxidant properties. It is also an effective skin protector.

Professional use & Home treatment

## TECHNOLOGIES TO USE IN COMBINATION

Chrome Light Mask to boost the effect.

Post - Cabin treatment with technologies.

## USE

**In cabin** - apply the Hydra filler & Restoring biocellulose mask, following the instructions on the package, at the end of the treatment in the cabin. Gives a smoothing and compacting effect.

**Session exposure time** - we recommend 1 weekly cabin session. Leave on for 15 to 20 min.

**Treatment** - we recommend using Hydra filler & Restoring Mask as a maintenance, applying it once a week, alternating with the Lifting Mask and Anti-Age Mask as needed.

**Hydra filler & Restoring Mask day/night** - the biocellulose can be applied both morning and evening to achieve an immediate effect, longer exposure time improves the result.

**Ingredients:** Aqua (water), aloe barbadensis leaf juice, butylene glycol, dimethyl isosorbide, sodium pca, pullulan, zinc pca, adansonia digitata fruit extract, hibiscus sabdariffa flower extract, Acetyl Decapeptide-3, coffee arabica seedcake extract, hydrolysed hyaluronic acid, palmitoyl tripeptide-38, kigelia africana fruit extract, resveratrol, polygonum cuspidatum extract, acacia senegal gum, ammonium glycyrrhizate, amylopectin, dimethylaminoethanol tartrate, crocus chrysanthus bulb extract, allantoin, urea, beta-glucan, maltodextrin, calcium pantothenate, pyridoxine hcl, cyclodextrin, sodium ascorbyl phosphate, xanthan gum, phenoxylethanol, chitosan, saccharomyces/copper ferment, saccharomyces/iron ferment, saccharomyces/magnesium ferment, saccharomyces/silicon ferment filtrate, saccharomyces/zinc ferment, propylene glycol, ethylhexylglycerin, pentylene glycol, tocopheryl acetate, glycine, silica, lactic acid.
