R.F. & STIM EMULSION

Emulsion specific for Face Radiofrequency

Formulation designed for Face Radiofrequency treatments that allows the maximum conductivity of the energy, making it easier to glide the handpiece. The active ingredients in it make it possible to obtain a significant toning and anti-age action.

MAIN ACTIVE INGREDIENTS

Marine Collagen (*Soluble collagen*) - It provides support and strength to the entire skin structure, it performs a compacting, moisturising and elasticising action as well as protection and prevention against skin ageing.

Echinacea Extract (*Echinacea angustifolia extract*) - This offers a re-epithelising, elasticising, toning and antiseptic action.

Ginseng (*Panax ginseng root extract*) - It is known for its revitalising and toning action, and stimulating effect on micro-circulation.

Saint John's Wort extract (*Hypericum perforatum (Saint John's Wort) extract*) - This provides a stimulating and toning action used against the ageing of the skin, to fight dryness, to lighten dark spots, to repair scars (from acne and stretchmarks). It gives skin elasticity, it improves its appearance, it is helpful on varying degrees of wrinkles.

ISO.RF.100

Professional use

250ml • Net Wt. 8.45 fl oz.

SUPPORTING PRODUCTS

Anti-age gel mask and wellness chromium with hyaluronic acid, ideal for completing the anti-aging program in the cabin.

Professional use

ISO.CHROME.100
[250 ml]

TECHNOLOGIES TO USE IN COMBINATION

**Bipolar
Radiofrequency**

**Multipolar
Radiofrequency**

**Face
Electrostimulation**

**Capacitive
Radiofrequency**

USE

R.F. - apply a generous layer of RF Emulsion on the face and continue with the chosen technology.

Stimol - apply a generous layer of RF Emulsion on the points for muscle stimulation.

Ingredients: Aqua (Water), Glycerin, Cetearyl alcohol, Cetyl alcohol, Decyl oleate, Soluble collagen, Panax ginseng root extract, Echinacea angustifolia extract, Hypericum perforatum extract, Propylene glycol, Sodium polyacrylate, Cetareth-20, Tetrasodium glutamate diacetate, BHA, Parfum (Fragrance), Phenoxyethanol, Ethylhexylglycerin.

R.F.F. EXTREME

Emulsion specific for Face Fractional Radio Frequency

Intensive anti-age emulsion developed to work in synergy with Fractional Radiofrequency technology. Formulated with high molecular weight hydrolysed protein, cross-linked and dehydrated microspheres of hyaluronic acid, marine collagen, functional peptide, vitamin E, it has an effective anti-wrinkle, lifting and plumping action.

MAIN ACTIVE INGREDIENTS

Marine Collagen (*Soluble collagen*) - It provides support and strength to the entire skin structure, it performs a compacting, moisturising and elasticising action as well as protection and prevention against skin ageing.

Hyaluronic acid - It is known for revitalising and toning action, and stimulating on micro-circulation.

Hexapeptide-19 - a synthetic biomimetic peptide with an immediate lifting action, that provides an elasticising action by affecting muscle contractions, therefore mimicking the action of botulinum toxin and reducing wrinkles and expression lines.

Hydrolysed vegetable protein - these constitute a unique hydrating complex able to penetrate deeply in the skin's structure, offering the right water for balance and leaving the skin silky and elastic to the touch.

Sunflower Seed Oil (*Helianthus annuus (Sunflower) seed oil*) - Rich in vitamins and minerals, it nourishes and softens skin that is dry and in need of hydration.

Professional use & Home treatment

ISO.RFF.110

150ml • Net Wt. 5.1 fl oz.

SUPPORTING PRODUCTS

Anti-age activator serum with lifting and plumping effect. Ideal after treatments with Radiofrequency.

Professional use & Home treatment

ISO.RFF.120R
[10 strips 3 ml]

TECHNOLOGIES TO USE IN COMBINATION

Fractional Radiofrequency 37 PIN

Fractional Radiofrequency 12 PIN

Bipolar Radiofrequency

Multipolar Radiofrequency

Capacitive Radiofrequency

USE

Fractional R.F. - apply a generous layer of RFF Extreme to the face or treatment lines.

R.F. - apply a generous later of RFF Extreme on the left side of the face and proceed with the Radiofrequency treatment. Continue by applying the product on the right side.

At home - use the intensive RRF Activator vials to boost the effects of the treatment.

Ingredients: Aqua (Water), Tripleurospermum maritima extract, Palmitoyl hexapeptide-19, Hyaluronic acid, Maris sal (Sea salt), Achillea millefolium extract, Echinacea pallida extract, Hydrolysed vegetable protein, Acacia senegal gum, Glycerin, Propanediol, Hydroxyethylcellulose, Xanthan gum, Tetrasodium glutamate diacetate, Citric acid, Phenoxylethanol, Ethylhexylglycerin

R.F.F. ACTIVATOR

Intensive Serum post Face Fractional Radiofrequency

Activator is an intensive anti-age serum developed to enhance the result of the treatment with Fractional Radiofrequency. Formulated with high molecular weight hydrolysed protein, cross-linked and dehydrated hyaluronic acid micro-spheres, seaweed, marine collagen, a mixture of functional peptides, vitamin E, it provides an effective anti-wrinkle, lifting and plumping action, also helping to counteract the imperfections of and dark circles and bags under the eye. It leaves the skin soft, nourished and smooth.

MAIN ACTIVE INGREDIENTS

Marine Collagen (*Soluble collagen*) - It provides support and strength to the entire skin structure, it performs a compacting, moisturising and elasticising action as well as protection and prevention off skin ageing.

Hyaluronic acid - It is known for its revitalising and toning action, and stimulating effect on micro-circulation.

Tetrapeptide-7 (*Palmitoyl tetrapeptide-7*) - This peptide stimulates the production of hyaluronic acid and native collagen. Particularly used for dark circles and puffiness.

Dipeptide-2 - This Fights dark circles and puffiness under the eyes.

Hexapeptide-19 - a synthetic biomimetic peptide with an immediate lifting action, that provides an elasticising action by affecting muscle contractions, therefore mimicking the action of botulinum toxin and reducing wrinkles and expression lines.

Hydrolysed vegetable protein - these constitute a unique hydrating complex that is able to penetrate deeply into the skin's structure, offering the right water balance and leaving the skin silky and elastic to the touch.

Home treatment

10 strips 3ml • Net Wt. 0.1 fl oz.

Open/Close cap

SUPPORTING PRODUCTS

RFF Extreme Emulsion, a specific product for cabin Radiofrequency treatment.

Professional use

ISO.RFF.110
[150 ml]

TECHNOLOGIES TO USE IN COMBINATION

Post Fractional Radiofrequency 37 PIN

Post Fractional Radiofrequency 12 PIN

Post Bipolar Radiofrequency

Post Multipolar Radiofrequency

USE

In cabin - apply the Activator serum with botox-like effect at the end of the treatment with R.F.F or R.F. Suitable as an intensive serum for anti-age face treatments and eye contour treatment (bags and circles)

We recommend 1 weekly cabin session. The serum can be applied at home on a daily basis.

At home - use the intensive RRF Activator vials to boost the effects of the treatment.

Day/night serum - the serum can be applied in the morning for a botox-like effect and improve the appearance of bags under the eyes and dark circles.

Ingredients: Aqua (Water), Coco-caprylate, Propanediol, Hydrolysed vegetable protein, Ethylhexyl palmitate, Tocopherol, Tocopheryl acetate, Sodium hyaluronate, Soluble collagen, Fucus vesiculosus extract, Dipeptide-2, Palmitoyl tetrapeptide-7, Palmitoyl hexapeptide-19, Hesperidin methyl chalcone, Helianthus annuus (Sunflower) seed oil, Glycerin, Cetearyl isononanoate, Cetearyl alcohol, Cetyl palmitate, Glyceryl stearate, Sodium polyacrylate, Cetareth-12, Cetareth-20, Steareth-20, Trihydroxystearin, Hexylene glycol, Caprylyl glycol, Propylene glycol, Xanthan gum, Glucomannan, Tetrasodium glutamate diacetate, Parfum (Fragrance), Phenoxyethanol, Ethylhexylglycerin.
