# The properties of Water for your Source of Beauty

Water is a fundamental element for human life and also for its well-being. It allows the body to absorb and assimilate minerals, vitamins, amino acids, and other substances. Water is an essential component for the hydration of the skin: it increases the transport of nutrients to the cells and oxygen to the tissues, also promoting the elimination of toxins and impurities. A precious resource, which becomes the protagonist in this new anti age project that aims to regenerate the skin of the face to make it more hydrated, bright, toned.

Aqua Fusion Plus is a real beauty laboratory that combines the best anti-aging technologies, managed with tested and specific protocols for different imperfections. From the laboratories of Overline comes an exclusive project, which aims to take care of the skin of the face by intervening on all the main imperfections that over the years can determine laxity, discoloration, impurities, redness, dehydration. An exclusive protocol is born, which through well-defined phases leads to a regeneration and a renewal of the skin, for a substantial improvement of all the aesthetic issues that over the years can afflict it.

## INTUITIVE SOFTWARE

Every imperfection deserves the most precise attention, Overline does not standardize the treatment but turns it into a consequence of imperfection, to propose to each customer the best solution.

## CUSTOMIZED PROTOCOLS\*

Overline offers treatment protocols widely tested on different subjects and methods of proven effectiveness, to meet the demand of an increasingly demanding end user.

## DESIGNED SYNERGIES

- Micro Derma Fusion
- H2O Solution
- Derma Infusion
- Rf Stimol
- Maskin Pro

## EDUCATIONAL VIDEOS

Designed to allow the operator to consult, at any time, the correct operating protocols, in order to achieve the necessary skills to offer and ensure the best service to the customer.

## PERFECT PERFORMANCES

Protocols and performances carried out within the Company\* respecting the suggested working methods confirm the synergy between Overline technology and iSol.Beauty cosmetics, ensuring maximum treatment effectiveness.

## INTEGRATED COSMETICS

The technologies used find their exaltation with the use of iSol.Beauty cosmetics, designed specifically to perfectly interact with the equipment.

## MACROCAM x200

Thanks to the Macrocam x200, which also includes the saving of pre and post treatment images, it is possible to examine the quality of the skin in the areas of the face on which to intervene, to establish the correct course of treatments. It is also used at the end of the treatment to verify the results.

## 10" DISPLAY

Fundamental tool to implement the work, with a few gestures you make a 360° consultation of the specific situation of the customer. You can consult the data and the status of the treatment path. In addition, integrated videos help clarify doubts and improve manual skills, to achieve the desired results

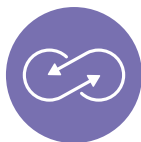

## CUSTOMIZED PROTOCOLS

The skin and all its imperfections deserve precise attention. With Overline Infinity Aqua Fusion Plus you can create custom protocols according to your individual needs. Thanks to the macro-cams supplied, a first skin analysis can be carried out, which will guide the operator to intervene in the best way.

Aqua Fusion Plus offers a variety of widely tested treatments, in which the technologies used are enhanced by the use of iSol.Beauty cosmetics, designed specifically to interact perfectly with the equipment and optimize the results. These proven methodologies meet the request of an increasingly demanding user, ensuring optimal and personalized results.

## DESIGNED SYNERGIES

Infinity Aqua Fusion Plus, born from the research and development carried out by the team of specialists of Overline laboratories, offers a mix of effective technologies that aim to eliminate impurities, deeply cleanse, nourish and tone the skin of the face, to say no to the cronoaging and the fotoaging.

The initial visual check-up with the Macro-Cam allows you to detect the state of the skin. The exfoliating action of the micro-dermabrasion diamond, with the infusion of a specific peeling product, promotes the cellular renewal of tissues by combining mechanical and chemical action. Radiofrequency + EMS (electrostimulation) contribute to skin rejuvenation thanks to the synergistic method that exploits the diathermal power of muscle microcontraction.

Derma Infusion, generating special dynamic currents with different waveforms and frequencies, allows the penetration and transport of specific active ingredients. A true infusion of nourishment for the skin.

Maskin Pro, with chrome-wellness action, gives the face an illuminating effect and allows the Booster serum to be better absorbed.

## MICRO DERMA FUSION

Aqua Fusion Plus uses a technology called Diamond Micro-dermabrasion, combining the use of a vacuum device that can make a suction action, and a diamond head in steel with abrasive power of various intensities.

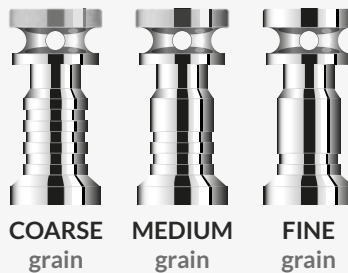

This technology determines an effective exfoliation of the skin by removing impurities from the pores while infusing the product APS Acid Peeling Solution, a specially formulated solution which uses the power of AHA, BHA and PHA to complete the action of cell turnover, also having antioxidant and illuminating action.

The solution in water acts as a vehicle that facilitates the movement and infusion of active ingredients into the skin.

## H2O SOLUTION

It is the second important step of the treatment, the exfoliated and clean skin in depth will be ready to receive the right nourishment through the infusion of the solution suitable for different needs. The solution in water acts as a vehicle that facilitates the movement and infusion of active ingredients into the skin.

## PEPTIDES

Infinity Aqua Fusion Plus uses water solution products enriched with valuable peptides. These peptides, thanks to the reduced size of their particles, are able to penetrate more effectively into the skin, offering enhanced benefits and optimal results for the well-being of the skin.

## DERMO INFUSION

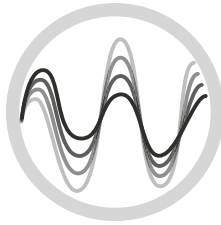

Electroporation, generating special dynamic currents of different waveforms and frequencies, allows the penetration and transport of specific active principles even of high molecular weight. This method is used in professional aesthetics for its ability to increase the permeability of skin tissues to cosmetic substances.

Overline Infinity Aqua Fusion Plus offers widely tested treatment protocols, with which the technologies used find their exaltation with the use of iSol.Beauty cosmetics, designed ad hoc to interact perfectly with the equipment, optimising its results. Methods of sure effectiveness, in order to satisfy the desires of an increasingly demanding end user.

## RF STIMOL BIOCELL

Radiofrequency + EMS (Electric Muscle Stimulation). Radiofrequency (RF) combined with muscle stimulation is an innovative method that exploits the powers of diathermy, and therefore tissue regeneration, in combination with the action of micro-muscle contraction, for firming and defining the contours of the face. The Face Stim protocol synergistically uses Bipolar Radiofrequency and EMS (Electrical Muscle Stimulation), with the aim of promoting a process of toning the skin of the face through a selective heating of collagen fibers and a stimulation of the facial musculature that determines a better ability to anchor the same fibers. The combination of the treatment of RF + EMS with the mask in Biocellulose will make the result unique, as well as offering pleasure during the execution.

## Exfoliation

### MICRO DERMA FUSION & ACID PEEL SOLUTION

APS Acid Peel Solution has been specially formulated to be used in combination with Micro Derma Fusion treatment. This synergy exploits the exfoliating effectiveness of microdermabrasion together with the specific action of APS, allowing a deep and delicate exfoliation at the same time. Suitable for all skin types, APS exploits the properties of BHA, AHA and PHA to promote complete cell turnover, improve skin brightness, provide antioxidant action and restore the skin barrier.

## Hydration & Rebalancing

### H2O SOLUTION, HYDRA CALMING & REBALANCE DETOX

Skin rebalancing, after a deep exfoliation, is a fundamental phase, which Aqua Fusion Plus performs through the infusion of a solution rich in peptides.

HS1 Hydra Calming Solution contains innovative Biointelligent peptides, O-Filler, which exploit the technology of intelligent active release, a bioactive complex of three Australian berries with antioxidant and moisturizing effect, and an energizing multimineral complex.

RS2 Rebalance Detox Solution contains Acetyl tetrapeptide-15, a specific functional peptide with a soothing action. It is also enriched with 5 essential extracts that act synergistically on the reduction of sebum production, thanks to their purifying and

## Regeneration & Toning

### Deep nourishment

#### DERMA INFUSION & SPECIFIC SERUMS

The use of suitable products is essential for the success of the result and to ensure absolute safety and compatibility. The phase with Derma Infusion is performed with concentrated sera studied and tested for this type of energy, which allows the transmission of their functional substances. A serum dedicated to deep hydration and anti-age action and a serum with balancing and sebum-regulating properties.

#### RF STIMULATION BIOCELL, LIFTING, ANTI-AGE, HYDRA FILLER & RESTORING

We have performed several tests that confirm the effectiveness of the combined treatment of RF (radiofrequency) and EMS (electrical muscle stimulation) with the Bio-cellulose mask. This combination offers an innovative and pleasant treatment for the client, combining the regenerating and compacting benefits of the emitted energies (radiofrequency and muscle stimulation) and the nourishing action of the mask.

## MASKIN PRO

Maskin Pro allows you to “finish with flying colors” in total relaxation, choosing from various colored LED lights that radiate the skin of the face for 10-15 minutes, also offering a final treatment of well-being. The light and the slight heat radiated allow the booster serum to act in depth, providing an intense nourishing effect to the skin.

## MASKIN PRO

To optimize the final result, Aqua Fusion Plus offers three different booster serums for use with Maskin Pro:

### *Moisturizer* **HB1**

Hydra Sense Booster - specific for deep hydration with Provitamin B5 and Hyaluronic Acid, also has a soothing action for sensitive skin thanks to the precious peptides and a functional synergistic complex with specific invigorating action.

### *Anti Age* **AB2**

Rigenera Age Booster - intensive serum enriched with biointelligent peptides, O-Filler and O-Antiaging, which take advantage of a technology for the intelligent release of the active ingredient. The serum has a nourishing, lifting and regenerating effect.

### *Rebalancing* **RB3**

Rebalance Detox Booster - specific to rebalance oily and impure skin thanks to a vitamin complex and a particular medicinal fungus with astringent and refreshing properties. It also contains burdock extract and biotin, with dermo-purifying action.

### *Lightening* **CW4**

C-White Booster - with Vitamin C microlipids performing illuminating, brightening and antioxidant action. It is also enriched with a synergy of active with an innovative mechanism of specific action for hyperpigmentation spots.

## EDUCATIONAL VIDEOS

At the forefront of service, Overline has always joined the professional aesthetic operator to offer a result of excellence.

With this in mind, Educational Videos of the specific manual skills of the treatments have been included in Aqua Fusion Plus, designed to allow the operator to consult, at any time, the correct operating protocols. Overline has thought of this solution to allow anyone, in case of a small forgetfulness or the inclusion of new operators, to be able to carry out self-training in order to achieve the skills necessary to offer and ensure the best service.

## PERFECT PERFORMANCES

Protocols and performances carried out within the Company\* respecting the suggested working methods confirm the synergy between Overline technology and iSol.Beauty cosmetics, ensuring maximum treatment effectiveness.
